# The shape of success. In a whole new dimension.

More intelligent and attentive than ever – The GLE casts the SUV in a whole new light. Its suspension actively smooths out any unevenness and its infotainment system learns more about your preferences as the days go by. Its convenience systems, meanwhile, can recognize when you need to take a rest.

# Consistency all down the line.

Take a step back at the right moment and then be right there when it matters the next moment – that is the art of the GLE design. Only the distinctive AMG Line and 20-inch 5-twin-spoke light-alloy wheels can make it sportier. This expression of the clarity and dynamism is typical of Mercedes-Benz design today.
